PROFILE

Hi, I'm Pablo, I'm 21 years old and I'm studying Computer Systems Engineering at ITESO. I am currently learning web development to work as a Full Stack Developer while I finish my degree. I always seek to improve in the things I do, I like to teach and learn from others, I work well in a team. My hobbies are: spending time with my friends playing board games or video games, cooking and learning new things related to my career.

EDUCATION

ITESO 08/2020 – 12/2024
Instituto Tecnológico y de Estudios Superiores de Occidente [🔗](#) Zapopan, Mexico
Computer Systems Engineering / GPA: 9.0/10

PROJECTS

Inventory management system - Java – Extracurricular (2022) [🔗](#)

The application has 3 types of users, each one has their username and password (encrypted), the high-ranking ones can delete or create accounts, the system allows you to manage the products, the entries and exits of the inventory are registered, you can search for products and users, etc.

Expense Planner - React - Extracurricular (2022) [🔗](#)

This website allows you to plan your expenses based on your budget, you can also filter your expenses based on the type of expense it was. This project was built with Vite + React, Node.js (NPM), Netlify, VSC, and local storage on page reload.

Flight simulator - Unity 3D - Extracurricular (2021)

It is a basic flight simulator, it has a simple map and 8 different planes to choose from, each plane has a different speed and agility and you can change the camera to see behind.

CRM React - React - Extracurricular (2022) [🔗](#)

This web project allows you to manage your clients. This project was built with Vite + React.js, Node.js (NPM), React Router 6, Tailwind, JSON Server + My JSON Server, Formik + Yup, Netlify and VSC.
